Frontend engineer with a passion for developing user-friendly web applications. Skilled in Javascript, React, Next.js, Typescript, and AWS. Created a web app with 99.9% uptime, processing over 5k+ user engagement per month.

Work Experience

Motherboard
Oct 2023 – Current

Frontend Developer

- Develop and engineer a cutting-edge Progressive Web App gas station locator, leveraging Javascript, Next.js, Typescript, and Tailwindcss.
- Implement a sophisticated geolocation feature within the gas station locator app, enhancing the precision of locating sources for our energy partners.
- Actively collaborate with the development team, contributing to the enhancement of the Motherboard codebase.

MishTranzact
Jun 2022 – Sep 2023

Frontend Developer

- Spearheaded the development of a dynamic and feature-rich eduTech platform using Javascript, Next.js, Typescript, and Tailwindcss.
- Achieved a remarkable 20% digitalization of the academic process for the institution through the successful deployment of the education portal.
- Implemented features within the platform resulting in an impressive 30% improvement in the ease of records collection and transmission.

Vattn AB
Jan 2022 – May 2022

Frontend Developer

- Engineered and contributed to the development of intuitive interfaces for property owners to manage their private wells seamlessly using ES6, React, HTML, and CSS.
- Collaborated closely with backend developers, IoT specialists, and designers, ensuring a cohesive integration within the overall software ecosystem.

Integrify
Jan 2021 – Jun 2021

Software Engineer

- Engineered the development of engaging and user-centric interfaces for projects that empower and train aspiring developers using React, JavaScript, HTML, CSS, Node.js, Express, MongoDB, and PostgreSQL.
- Actively participated in the training and mentorship of developers, contributing to the social mission of Integrify by helping individuals kick-start their careers in top European companies.

Innovatum AB
Nov 2019 – Mar 2020

Software Engineer Intern

- Spearheaded the development of a real-time board that tracks the various startups' incubating stage using HTML, CSS, React and JavaScript and third-party API integrations.
- Collaborated with experienced developers and cross-functional teams, actively participating in the development process, and code reviews.
